PRESS RELEASE

BIOTRANSFORM consortium holds its 3rd meeting in Prague, Czechia

The BIOTRANSFORM project, a HORIZON Coordination and Support Action funded by the European Union, proudly concluded its successful 3rd consortium meeting in Prague, Czechia, on November 9-10, 2023. The meeting was hosted by the project partner "BIOEAST HUB".

Over the course of two days, the consortium partners engaged in robust discussions, reflecting on the strides achieved within their respective work packages. The meeting served as a platform for comprehensive updates, wherein each partner presented significant milestones, sharing invaluable insights gained from their dedicated contributions. This exchange of information provided a holistic view of the consortium's advancements, setting the stage for strategic planning in the upcoming phase of project implementation.

Central to the meeting were working sessions where partners from case-study regions including Austria, Czechia, Finland, Germany, Greece, and Spain, detailed the obstacles and opportunities in the Circular Bioeconomy transition specific to each region. This targeted approach facilitated a nuanced understanding of regional challenges and potential, essential for crafting tailored strategies in the journey towards a circular bioeconomy.

The conclusion of the 3rd BIOTRANSFORM consortium meeting underscores a steadfast commitment to continued collaboration and innovation. The consortium remains dedicated to driving transformative change towards a circular bioeconomy, prioritising environmental sustainability at every step.
